

Publishing Policy

The editors welcome articles reporting communication research, theoretical considerations and philosophical or historical concepts and experiences involved in reaching audiences of ACE members. Submissions for practical application are especially desired on media results, communication management, campaign efforts and design and visual innovations.

Although publication of manuscripts is not limited as to membership in Agricultural Communicators in Education, manuscript acceptance and publication consideration priority is given those submitted by ACE members.

Send manuscripts to ACE, 655 15th Street, N.W., Suite 300, Washington, D.C. 20005, or submit them to your regional editor. Send research briefs and reviews to the editors, or to individuals responsible for briefs and reviews. (Addresses inside front cover.)

Submit all copy, double-spaced, on 8½ x 11 paper. Xerox copies are acceptable. Submission to ACE Quarterly is considered a commitment not to be breached by submission to other journals while the article is under review. **If authors wish an acknowledgement of manuscript received, they should enclose a self-addressed, stamped postcard, listing the title of the article.**

All submissions should include article name, author or authors, agency or institutional affiliation, any special funding or grants involved in work reported, ACE-relevant biographical information and a statement as to whether a more detailed report is available if the article has to do with a research project.

On research reports, authors should limit footnotes to substantive comments about the text, number them consecutively with superscripts within the text but type them separately. References, when necessary, should be listed within the text itself between brackets, *ibid*, *op. cit.*, etc. should not be used. If a reference is a printed, direct quote, authors should include the page number in brackets for reference. For repeat citations from the same source, authors should discriminate from one work and another produced within the same year with "a," "b," "c," and so on, as (DeJohn, 1972a). Bibliographic citations also should be kept to a minimum. When used, authors should begin the first reference number and list entries in alphabetical order, last names first.

Tables and figures should be submitted camera-ready in protective covers. At the appropriate place in text, indicate approximate placement of each table such as: "Table 1 about here."

ACE Officers and Board 1987-1988

President

Joe Marks
1-98 Agriculture Bldg.
University of Missouri
Columbia, MO 65211
