Journal of International Agricultural  
& Extension Education

AIAEE

A publication of the Association for  
International Agricultural and Extension  
Education

*Journal of International Agricultural and Extension Education*

Online ISSN 2831-5960

Print ISSN: 1077-0755

DOI Prefix 10.5191

<https://newprairiepress.org/jiaee/>

The *Journal of International Agricultural and Extension Education (JIAEE)* is the official refereed publication of the Association for International Agricultural and Extension Education (AIAEE). The purpose of the *JIAEE* is to enhance the research and knowledge base of agricultural and extension education from an international perspective. Acceptance rates for the past five volumes are: Volume 21 = 13%. Volume 22 = 18%. Volume 23 = 12%. Volume 24 = 18%. Volume 25 = 9%. Volume 26 = 26%. Volume 27 = 17%. Volume 28 = 22%.

Articles intended for publication should focus on international agricultural education and/or international extension education. Articles should relate to current or emerging issues, cite appropriate literature, and develop implications for international agricultural and extension education. **Manuscripts, or portions of manuscripts, must not have been published or be under consideration for publication by another journal.**

For publication in the *JIAEE*, manuscripts must pass the ***JIAEE's* double blind, referee process**, where peer reviewers evaluate manuscript content and ensure readability. Reviewers are selected from the AIAEE membership. In the double blind, referee process, all references to authors are removed before the manuscript is sent to reviewers. Articles may be submitted for peer review a total of **three times** before they are no longer acceptable for publication in the *JIAEE*. Failure to meet the submission formatting guidelines will result in an automatic first rejection.

Two different types of articles are solicited for the *JIAEE*: Feature Articles and Research Notes.

#### **Feature Article**

A Feature Article should focus on philosophy, current or emerging issues, and the methodology and practical application of specific research and appropriate technologies, which have implications for developed and developing countries. Conceptual/Theoretical and Methodological manuscripts are also encouraged as submission for feature articles. If applicable, a feature article should report the findings from a fully investigated study. Feature articles are **no longer than 20 double-spaced pages, excluding references.**

#### **Research Note**

A Research Note is a concise but complete description of a limited investigation that will not be included in a later manuscript. It serves one of the following purposes: (1) presents initial proof-of-concept results on new ideas or program evaluations, timely issues, or innovative approaches; (2) reports replications or extensions of previously published research that does not merit another full-length manuscript yet provides results that contribute to a greater understanding of the phenomena under study. Research Notes are **no longer than 10 double-spaced pages, excluding references.**

<b>Editorial Board and Leadership Team .....</b>	<b>4</b>
<b>From the Executive Editor .....</b>	<b>6</b>
<b>Feature Articles</b>	
The Exploration of Undergraduate Attitudes and Knowledge about International Agricultural Issues and United States Agricultural Policy .....	7
Caitlin Bletscher, Washington State University	
Megan Gould, Texas A&M University	
Shuyang Qu, Iowa State University	
Building Global Leaders through Field Research and Extension Experiences in Belize .....	24
Tom Gill, University of Tennessee, Knoxville	
Adam S. Wilcox, University of Tennessee, Knoxville	
Identifying Respondent Group Representation in Extension Capacity Assessments: A Meta-Synthesis of the Literature and a Primary Study .....	43
Kevan W. Lamm, University of Georgia	
Alyssa Powell, University of Georgia	
Alexa Lamm, University of Georgia	
Kristin Davis, International Food Policy Research Institute	
Small Farm Resource Centers as Informal Extension Hubs in Underserved Areas: Case Studies from Southeast Asia .....	74
Adam Bicksler, FAO, Rome, Italy	
Patrick Trail, ECHO Asia Impact Center	
Ricky M. Bates, The Pennsylvania State University	
Richard R. Burnette, Cultivate Abundance

## **Editorial Board**

The editorial board consists of the editors, the past editor and other members representing regions of the world.

### **Editors**

Dr. M. Todd Brashears, Executive Editor  
Texas Tech University  
Lubbock, TX 79409-2131  
United States of America

Dr. Mary Rodriguez, Managing Editor  
The Ohio State University  
Columbus, OH 43210  
United States of America

Dr. Alexa Lamm, Past Editor  
University of Georgia  
Athens, GA 30602  
United States of America

### **Global Editorial Board Members**

Dr. Kristin Davis  
International Food Policy Research Institute  
Editor, JAEE  
South Africa

Dr. David Dolly  
University of the West Indies  
Trinidad and Tobago

Dr. Kim Dooley  
Texas A&M University  
United States of America

Dr. Rama Radakrishna  
Pennsylvania State University  
United States of America

Dr. Leslie Edgar  
New Mexico State University  
United States of America

Dr. Bryan Hains  
University of Kentucky  
United States of America

Dr. Jason Ellis  
Kansas State University  
United States of America

Dr. Assoumane Maiga  
International Livestock Research Institute  
Mali

Dr. Anthanasios Gertsis  
Perrotis College  
Greece

Dr. Sarahi Morales  
Zamorano Pan-American Agricultural  
School  
Honduras

Dr. Richie Roberts  
Louisiana State University  
United States of America

Dr. Adam Rosenberg  
Foreign Agricultural Service  
United States of America

Dr. Lisa Taylor  
University of Nevada  
United States of America

## **Association for International Agricultural and Extension Education Officers**

Dr. Mary Rodriguez, President  
Ohio State University  
U.S.A.

Dr. Ataharul Chowdhury, Secretary  
University of Guelph  
Ontario, Canada

Dr. M. Craig Edwards, Past President  
Oklahoma State University  
U.S.A.

Dr. Roger Hanagriff, Treasurer  
Texas A&M University - Kingsville  
Kingsville, TX, U.S.A.

Dr. John Dias, President-Elect  
The University of Florida  
U.S.A.

Dr. Kristin Davis, Member-At-Large  
International Food Policy Research Institute  
Pretoria, South Africa

Pablo Lamino Jaramillo  
Graduate Student Representative  
Texas Tech University  
U.S.A.

## From the Editor

*We have always held to the hope, the belief, the conviction that there is a better life, a better world, beyond the horizon.* Franklin D. Roosevelt, October 12, 1940

During some of the bleakest times in world history, Roosevelt held on to the belief that the best approach to tough issues was to face them head-on and with optimism. Working to improve the lives of the American people during the Great Depression, he was rewarded with a world war he could not avoid all the while fighting his own battle against the lingering effects of polio. Optimism to face the obstacles of each day sustained his own will to succeed and spread to those around him. Each person in his inner circle fed off his energy and hope for the future.

It is easy to get caught up in the events of the day. While we continue to deal with the lingering effects of a global pandemic, the threat of a sustained war in Europe seems likely for the first time since Roosevelt was in office. How do we continue to support those who depend on us as professionals in the face of such obstacles? We do so with hope; hope for a better life and hope for a better world, but even with hope, we must continue to seek out opportunities to be impactful. My dad had many sayings as I was growing up, one of his favorites being, “Pray for rain but plow the field.” We optimistically continue to work, believing we can positively impact the world around us.

This spring issue of the journal reflects that premise as we see four articles focused on the future. Two of these delve into how we understand and develop the human capacity for international agriculture development through our undergraduate students. This group of students will be responsible for continuing the legacy built by generations of extension professionals. In addition, we have an extremely well-referenced meta-analysis and a case study which give us insight into improving our research methods as well as our dissemination efforts. Each of these studies look to the future with hope for agriculture, hope for our profession and hope for the world.

Thank you all for reading the *JIAEE*. Please feel free to contact us at any time if you have questions. We continue to wish you all peace, safety and health.

Sincerely,

A handwritten signature in black ink that reads "Michel Todd Brashears". The signature is written in a cursive style with a large, stylized 'M' and 'B'.

M. Todd Brashears, Professor  
Executive Editor, *Journal of International Agricultural and Extension Education*
