Dear Dr. Janine Duncan:

I offer this letter as a sponsoring statement for the manuscript titled “Impact of external ankle dorsiflexion restriction on sagittal plane kinematics and ACL injury in big mountain skiing.” Authors Megan Bass, Kaelin Enga, Dori O’Sullivan and Deirdre O’Sullivan are all undergraduates, scheduled to graduate in May of 2025 from Colorado College.

From its inception, the above-mentioned students have been principal in the development, piloting, and execution of this original research project. Additionally, the planning, execution, and writing of the manuscript represents primarily the work of the above-mentioned undergraduate students. I have read and critiqued the manuscript.

This work was approved by the Institutional Review Board of Colorado College. Approval email has been submitted as an attachment by the above students.

Sincerely,

Eryn Murphy
Assistant Professor
